**STANDARD
VERSION**

**STRADDLE
VERSION**

Agile and Efficient, the new choice for Stacking:

The compact pedestrian stacker series is available in PS12-A2SL, PS15-A2SL, and PS15-A2SLK models, all with a 60Ah lithium battery as standard. They are designed with simplicity, safety, stability, and efficiency as their core features, specifically tailored for light duty material handling, order picking, and stacking operations. The compact body design allows these models to flexibly shuttle through narrow aisle and easily enter and exit elevators for precise control. Whether in the narrow aisle of a warehouse or in work environments that require frequent turning, they offer superior flexibility and handling to meet your needs for efficient loading and unloading operations.

24V/60Ah Lithium battery

**PS12/15-A2SL
STANDARD**

**PS15-A2SLK
STRADDLE**

Stable & durable masts

- Standard C+H channel steel
- Double-chain design

High-strength forks with a thickness of 40mm high strength steel

Straddle leg(mm)			
Inside dimension	970	1110	1250
Outside dimension	1170	1310	1450

Adjustable solid steel straddle legs

Simplicity

- The low-mounted long tiller is easy to steer
- Compact body allows easy and precise control in narrow spaces
- Longer operating time standard 24V/60Ah lithium battery, with an option of 24V/100Ah.
- Easy-charging: the built-in charger can be charged at any time
- Turtle speed mode
- Up-right drive for moving vehicle in narrow aisle

Safety

- Low ground clearance
- The tiller maintains an effective safety distance from operator
- Full coverage protection on mast
- Forks lowering buffering system
- Explosion-proof valves
- Battery low voltage protection
- Vehicle is powered off automatically during charging
- Travel speed limit when the mast is lifted more than 500mm

Stability

- Strictly passed stability test
- Speed limit (when forks are raised to the height of 500mm and above)
- Low centre of gravity

Efficiency

- Proportional control lifting & lowering
- Centralized tiller for one-hand operation
- Small turning radius

Serviceability

- Simple electrical system
- Low after-sales service cost
- Quick & easy fault diagnosis
- Brake release for easy maintenance

PS15-A2SLK

STANDARD SPECIFICATION

- 24V system with brush motor
- Key switch
- Mechanical steering
- Electromagnetic brake
- Proportional speed on lifting/lowering
- Right side proportional control knob
- Polyurethane drive wheel
- Tandem polyurethane load wheels
- Fork dimensions: 560*1150mm
- Metal wire mesh mast protection
- 24V/60Ah lithium battery
- Built-in charger
- Maximal parchment white for lithium battery

OPTIONAL SPECIFICATION

- CE/UKCA certification
- Password entry / swipe entry / fingerprint entry
- Two side proportional control knob
- Fork dimensions: 680*1150mm
- PC board mast protection
- Remote control key
- 24/100Ah lithium battery
- 24V/71Ah maintenace free lead-acid battery
- 24V/89Ah maintenace free lead-acid battery
- Maximal red for lead acid battery

PS12/15-A2SL

STANDARD SPECIFICATION

- 24V system with brush motor
- Key switch
- Mechanical steering
- Electromagnetic brake
- Proportional speed on lifting/lowering
- Right side proportional control knob
- Polyurethane drive wheel
- Tandem polyurethane load wheels
- Fork length: 1070mm
- Fork spread: 200-795mm
- Fork carriage: ISO 2A 800
- Metal wire mesh mast protection
- 24V/60Ah lithium battery
- Built-in charger
- Maximal parchment white for lithium battery

OPTIONAL SPECIFICATION

- CE/UKCA certification
- Password entry / swipe entry / fingerprint entry
- Two side proportional control knob
- Fork dimensions: 680*1150mm
- PC board mast protection
- Remote control key
- 24/100Ah lithium battery
- 24V/71Ah maintenace free lead-acid battery
- 24V/89Ah maintenace free lead-acid battery
- Fork length: 1150mm/1220mm
- Maximal red for lead acid battery
